Idea, Startup, or Existing

Your business stage may determine what resources are available to you. We've identified service providers that help entrepreneurs develop an idea, launch a startup, or grow an existing business. Here is how we define the three business stages:

	IDEA: You have dreams of starting a business, but don't know where to start.
	STARTUP: Your business is 0 to 3 years old and in the early stages of growth.
	EXISTING: Your business is at least 3 years old and growing.
